A passionate and innovative problem solver with extensive programming knowledge, proven leadership skills, and a track record of delivering successful projects while fostering a collaborative and creative environment. Committed to driving impactful change and helping organizations achieve their goals.

Projects

Full Stack Projects

- **Online Toy Store Application (Tech Stack : React JS,SpringBoot,MySQL)**
  - Developed an Online Toy Store Application using React JS for the frontend, SpringBoot for the backend, and MySQL for the database. The application allows users to browse and purchase toys online, manage their shopping carts, and view order history.
- **Job Application Portal (Tech Stack :React JS,SpringBoot,PostGreSQL)**
  - Developed a Job Application Portal using React JS for the frontend, SpringBoot for the backend, and PostGreSQL for the database. The portal allows users to search for job listings, submit applications, and track the status of their applications.
- ### Mini Project
  Healthcare Management System
  - Developed a Healthcare Management System console project using Java. The system allows users to manage patient records, schedule appointments, and generate reports.
